Subject: Seeking community input on road safety rule changes

Joke. If the bike riders continue their habits we will have to drive on the other side of the road to give them 1.5 meters. How about that they have to stay in the idle of the bike lanes for a start.

We need them to have number plates. How can we report them for bad behaviour?

Think outside the box and number plates for push bikes are simple and easy to administer with little administration. Can't do it like auto rego.

I do not mind sharing roads with them but many are outrageous and we drivers get the short end of the stick.

Then no safety regs for them. Can ride at night dressed in black with no lights or reflective clothing.

Time to get real on this issue. We need more bike son the road and less cars but let's do it right.

Cheers, Joe Lenzo
