### YOUR SUBMISSION

**Submission:**

I well recall being a kid and standing in Gordon St Maribyrnong and SEEING the City. I also recall Liberal Premier Boltie regarding pollution as a red neck joke. Today there is no way you can stand in the same spot and see the CBD WITHOUT a heavy haze. I driven on the Westgate at 4ish pm going to the Blood Bank and seeing blgs barely above that awful smog. Pollution is growing at an alarming rate and the Liberal Party only cares about their mega wealthy mates. Doing nothing to help us breathe. NOT at all thinking about tomorrow. My grand daughters deserve far far far better. So what can we do? eg far more emphasis on solar energy and STOPPING POWER COMPANIES RIPPING US OFF. Require all new blgs 3 stories and upwards to have rain water tanks and roof top gardens. Push solar panels more and solar batteries - you see far more in HELLAS (Greece) than here. Push electric cars far more BUT they must pay some taxes for roads etc. Push hydrogen power as well, as my mate Mario tried and tried 25 or so years ago to no success. Spend research into how to make factory chimneys cleaner. Plant far more trees including at beaches to also provide shade from sun and sunburn prevention. Require every new municipality to have x % gardens...
