

## Air pollution Inquiry>

Mr John Sullivan

**Organisation Name:**

**Your position or role:**

### YOUR SUBMISSION

**Submission:**

Reduce Victoria's pollution by:

Electrification of all public transport.

Support for private EV ownership (reduce tax) and development (support manufacturing and recharge accessibility).

Increase current solar payment rebate and force energy suppliers to upgrade the infrastructure to cope with domestic solar feed in. The idea that solar should pay more when overload is an issue will be counter productive.

Support and enhance the EPA's capacity to enforce pollution legislation.
