Dear Parliamentarians,

I would like an enquiry into the extinction of Native animals, I drive past so many 4wd with spotlights on their roof racks, (used for spotting and shooting kangaroos). Here is Mitchell shire, a buyer once told me how happy he was living in Beveridge where he could see Kangaroos and be the envy of this oversea's family and friends, only to find that they are all gone now, as they were shot over a couple of nights.

My friend in the Atlanta recency asked me if Koala's are nearly extinct to which I sadly had to inform her of the recent tree felling near SA where hundreds were killed following the worst bushfires we have had in terms of fauna loss just months ago in VIC and NSW. I reminisced how we used to play spot the Koala when I was little in the 70's and 80's in places like Anakie near Geelong, now you can't find a koala anywhere in these areas.

Best Regards

Jacinta Stephenson
