

Greetings .

My name is Ron Dean .

My address is

I am contacting you to express my , and my families concerns ,
about the existing and increasing dangers of Extinctions in Victoria .

Our famlies live in the St Leonards , Bellarine Peninsula and Geelong areas .

We travel holiday and camp throughout all the areas of Victoria and beyond
over the years . We love the natural beauty and diversity of this state and
country .

We wish that all of the political parties will work towards strong leadership ,
that protects these assets for many generations to come .

We protest against native forrest logging .

We strive for a " Dedicated Species Recovery Program " to be designed .

We need action to clear the many invasive species that overrun us .

We need a plan to prevent further Habitat Destruction for innocent species .

I do feel that I realise what great challenges that these issues have been
over the years , and thank you for the work and efforts you have made so far .

Most Sincerly

Ron Dean
