Subject: New Submission to Inquiry into Ecosystem Decline in Victoria

Categories: Submissions

Inquiry Name: Inquiry into Ecosystem Decline in Victoria

ms suzanne dance

SUBMISSION CONTENT:

--

To the Victorian Parliamentary Inquiry into
Ecosystem Decline.

This submission requests the Victorian Government to legislate for stronger laws to protect our indigenous environment i.e Forests ,grasslands and animals .
Such laws should begin with the rapid phasing out of fossil fuel based energy sources as it is these, as you know ,that increase global warming , the widely recognised reason for the unprecedented strength and destructive bushfires Victoria experienced 2019/2020 where 70% of Gippsland indigenous forests were destroyed and thousands of their indigenous animal inhabitants burned to death.

These laws should be formulated in consultation with the traditional owners. With their ancestral association and management of these environments their contribution is essential.

i urge you to expand your incentives to encourage the use of renewables be it solar, wind or water, and STOP LOGGING OUR INDIGENOUS FORESTS.
