Environment Victoria: report into bushfires and regional forest agreements (<https://www.envirojustice.org.au/wp-content/uploads/2020/03/EJA-report-No-longer-tenable-1.pdf>)

We are failing, you the governing body who are meant to lead us, are failing to do so. All of you. You allow and support destructive, profiteering businesses to decimate our flora and fauna, pollute our skies, oceans and water ways, kill and cull our native species, claiming them to be pests. You enslave and farm millions of living beings, seeing them only as objects of monetary value, with no feelings just like the humans you pay to violate and kill them. Our ecosystems are dying, the earths biodiversity is crippling, the impact of your business models are driving the climate emergency and killing us all and still you all continue to choose money over the life of earth. We are only a small part of living nature, yet we have become the greatest problem of all.
