Inquiry Name: Inquiry into Ecosystem Decline in Victoria

Mrs Kate Simpson

I am concerned about ecosystem decline in Victoria. The six points of reference listed are all vital.

Legislation needs to be enacted to better protect what little remains of our natural world.

Programs already in place need long-term commitment and funding.

We also need to embrace new ways of responding to climate change and our growing population.

Please give this your urgent attention before developers, landholders, corporations and government wreak even more permanent destruction on our fragile ecosystems.
