Subject: New Submission to Inquiry into Ecosystem Decline in Victoria

Categories: Submissions

Inquiry Name: Inquiry into Ecosystem Decline in Victoria

Convenor
Friends of Lake Knox Sanctuary

SUBMISSION CONTENT:

--

I am concerned that intentions of the Vic Government to protect biodiversity and existing ecosystems is not being put into practice through it's agencies.

An example is the stated intent of Development Victoria to within the next 12 months to destroy and remove the existing biodiversity and ecosystem contained with Lake Knox as part of their housing Knoxfield.

For 4 years a dedicated group of peak environmental organisations have given of their time to have this development protect and retain the biodiversity of endangered fauna and flora including the Blue Billed and Hardhead Duck, but Development Victoria have ignored our concerns and about to destroy a much loved and rare ecosystem within Metro Melbourne.

Legislation and political commitments are useless unless they kick in during these types of development.

I would like to address or appear to the inquiry to state my concerns in more detail for we lose yet another precious piece of nature to I'll conceived planning and development.
