Dear Standing Committee on Environment and Planning,

RE Ecosystem Decline in Victoria

We have lost our way and are destroying our state.

There is inadequate framework to protect what is unique and sacred to Victorians.

The disrespect and evil treatment of our native animals is beyond a joke.

The way that our marine and land animals are disregarded and left without water food and shelter is callous, heartless and it's Un-Australian.

For me the most astounding that I have come across is not allowing or permitting people to help the wildlife after the Government or commercial industries cause harm.

At the very least if the destruction must continue then these carers, groups, shelters and charities should be 100% supported financially, and legally.

Please disallow and ban logging, unnecessary marine industries and protect the little we have left.

Yours Sincerely, Emily Alexandra
