My submission goes to the very heart of the continual undermining of Australia's unique, fragile and precious Environment. We, as a country have the worst mamalian Extinctions in the world...this is nothing to be proud of.

Why do Australian environments that sustain our unique animals constantly come under commercial attack and threat, serving one avaricious end.

Where is it written that the natural world has no boundaries for its rape. The animals that inhabited Australia before White Man were not subjected to this wholesale slaughter they have come to endure since.

The fact that their lives are seen as our captives when it suits, in order that some fat cat (mainly ferral) can cash in on their demise while having no ethical or moral reason for doing so...just greed and cronyism.

For the sake of our animals and environment this project has to be REJECTED.. NO MORE PROJECTS IN SENSITIVE ENVIRONMENTAL AREAS. JUST STOP THIS SO THE NATURAL ENVIRONMENT CAN THRIVE AND SURVIVE FOR OUR GRANDCHILDREN'S SAKE. PLEASE!
