To the Environment and Planning Committee .  
I would like to make a submission to the enquiry into Victorian Ecosystem Decline.  
I am an artist and have lived in Gippsland for 30 years for the beauty and inspiration the area gives. Over the last 13 years I have personally experienced 2 bushfires, I've noticed increasingly dry forests and dry dams plus last years catastrophic fires with billions of animals burnt all equals climate change.  
I suffer eco stress as do my artist friends. We need a a voice for the animals, the forests and their ecosystems protected for future generations and a public right to information ( and the right to challenge any decisions) concerning climate change and the environment.  
Importantly, the government needs to incorporate inputs from Traditional Custodians in environmental management and implement their fire practices.  
Please consider my submission. Sincerely Amanda Goodge. [REDACTED]
