I'm very concerned about the cumulative effects of habitat destruction, lack of protection for wildlife and climate change on biodiversity in Australia. Some examples of current permitted practices which should be legislated against are -

- duck shooting, an arcane practice which endangers other species.
- allowing race horses to exercise on beaches where sea birds nest.
- permitting logging of old growth forests.
- single use plastic bags of any kind.

There are many other examples. Time is running out for many of our vulnerable habitats and species. Please act now.
