INQUIRY INTO BIODIVERSITY LOSS AND ECOSYSTEM DECLINE

I am very concerned about our beautiful animals. Our native and unique Australian kangaroos are exploited for meat, fur and profit.
Mums, dads and joeys - family mobs - are shot and dismembered, often to make way for animal agriculture. Joeys are regularly killed by blunt-force trauma, and it is completely 'legal'. We need better laws to keep kangaroos safe.
It's their home too. We must find a better way to co-exist with wildlife.
We can do this by developing eco-tourism programs, so that people can come and see these iconic and majestic animals, as well as promote and support biodiversity-sensitive farming so native animals can flourish.
Please help our wildlife. Save kangaroos and their habitat. It's our duty to love and protect our unique Australian animals for our children, grandchildren and future generations to enjoy.

Thanks and regards,
