The Tawny Frogmouths in my backyard keep me going - They are important for my mental health.

I am 94 years old and still living in my small home in Camberwell. From my comfy chair I can see a pair of Tawny Frogmouths in a big tree in my backyard. Over the years they have been here off and on, always in that tree. For the last 2 months they are there almost daily.

(relevant to terms of reference (a) .....the likely impact on people....., if more is not done to address this, including consideration of climate change impacts;)
