I have been protesting against the development of the kingswood golf course for many years now, when i talk to someone about saving kingswood from the development every person I speak to ,say your wasting your time,money talks.

Well I say it's about time the people are listened to, we had 8000 objections to this development and the Kingston council agreed that Dingley Village could not cope with such a disastrous project.

Kingswood golf course merged with peninsula golf course in 2013 ,they sold kingswood G/c for \$ 90million to AUS Super with a clause in the contract, saying that if Aus Super changed the zones from recreational to residential (this has never been done in Victoria's history) by September 2022 they will pay peninsula - kingswood another \$25 million.

The people of dingley banded together and 8000 objections were presented to the council and the council rejected there proposal unanimously.

So when P/K had there Grand opening,they invited Dan Andrew's to cut the ribbon.

After wining and dining with him and games of golf Dan decided to do the following.

Within months Dan Andrew's started a committee to work out what the governments would do with sold golf courses.

He has created a committee of 5 people, 2 of which have financial interests with Aus Super.
Coincidence or not.

The dingley residence are being railroaded into a 880 lot 3 storey disaster that they and the city of Kingston don't want and can't handle.

On the Official Grand Opening Day back in May, there were about 800+ members in attendance. Glenn confirms it was an amazing event, with Victoria's premier Daniel Andrews unfurling a new plaque at the Club to signify the beginnings of Peninsula Kingswood Country Golf Club.

100 golf clubs were asked if they were offered 90 million dollars for there golf course would they sell, 27 said yes.if this development gets the go ahead that will set a precedence for any public space to be swooped on by these immoral developers .

The developers have have shown no interest with helping the environment or the wildlife, or the people of Dingley.

It's time the government looked after our planet and not wealthy developers pockets.
