I strongly support the Bill to introduce banning of plastic bags, packaging and microbeads.

I am a consumer who has attempted to reduce the number of plastic bags I use, but have not been entirely successful. I need to have the law prodding me to make all the adjustments necessary to protect our environment. This is now a very urgent problem which requires firm and comprehensive action. I believe the Bill provides what is needed.

Evidence from other jurisdictions shows that this is not an unachievable plan.
