To the Parliamentary Committee,
We would like to make a submission regarding The Environment Amendment Bill 2016 - currently before the Victorian Parliament.

Australians using 10 million New plastic bags daily is clearly unsustainable.

The Proposed Recommendations urging the banning of distribution or sale of various one use bags, "plastic wraps" and products containing micro beads has our very strong support. It's bringing into law would be a great help in setting up a sustainable future for our kids.

The Mallacoota Community successfully campaigns to be plastic bag free. We have a "Boomerang Bags" system - community members have made/ collected reusable material bags, these are left at supermarkets for persons without their own, to use and return to shop after use.Its working very well One supermarket has saved 140,000 plastic bags in 9 months,
Please accept recommendations
On behalf of Paul Rodoreda (spouse) and myself, Amanda Schott
