Subject: Plastic bag

I emailed the Vic gov quiet awhile ago about a recycling deposit depo for glass ,plastic bottles,aluminum cans,as Adelaide has such depos when I visited there ..I noticed how clean Adelaide was. If we had a system which people could get a few dollars, this would lighten rubbish on our streets,as homeless people would pickthem up and drop them at a deposit depo for a fee..also plastic bags were banned from almost every store unless you purchased them.I'm sure we Victorians could adapt to this great idea..
