Subject: We have solutions, it's time to use them

RE: INQUIRY INTO THE ENVIRONMENT PROTECTION AMENDMENT (BANNING PLASTIC BAGS, PACKAGING AND MICROBEADS) BILL 2016

We have solutions, it's time to use them

Anything that stays in the environment and doesn't break down quickly needs to be removed from our daily lives. We can create biodegradable plastics and it's time to start using them. The costs are higher initially in the short term but in the long term there costs will decrease dramatically and that's not including the costs to the environment.
