I urge the Vicorian government to support a ban on plastic bags for environmental reasons. The town of Anglesea has had a ban on plastic bags for several years now and there are no problems whatsoever. I have never heard any complaint about a small charge for a paper bag or free cardboard boxes.

All plastics should now be biodegradable, and certainly not single use. Our land fills are too big, and our oceans and their animals too full of plastic. Stop the manufacture and sale of non-biodegradable plastics now!
