To The Secretary,
Environmental Planning Cmty.
Redbank House

Dear Secretary,

Mr. Mitchell Shire Council

I was appalled that the council would resort to emotional blackmail to justify them increasing the rate cap by 4.5%. By not supporting them we are being blackmailed by suggesting that some of the following will be cut back:

- School crossing supervisors
- Fire protection works, etc.
- It seems some of the top salaries should be the first place to start cutting. I believe the rate payer for the staff is in the vicinity of $90,000.
- Trusting you can take a close audit of the financial affairs of our Council.

Thank you for your attention!

Now Watson!
