RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

If we stopped providing plastic bags in supermarket and retail shops people would have to carry their own bag/basket as the older generations managed to do without any hardship.

I wash out all items to be recycled as requested which, knowing now that most is going into landfill, not only wastes my time but also our precious water.

We manufacture hardly anything any more, surely to goodness we can be a leader in the world of recycling, I'm sure there are people with the ability to come up with those solutions.

Let's not be lazy and hope someone else will take it!
