RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

I would like the above mentioned changes to waste and recycling management for Victoria and Victorians. I would also like councils to be held to higher account. They take our rates and don't ensure that accessibility to the best and most affordable options for waste disposal and recycling. Textiles recycling, furniture recycling, repurposing or fixing stations to give new life to broken items like that in St Kilda. I would also like to see median strips and road sides kept clear and clean of green waste, overgrowth and rubbish. Invest in cleaning waterways like beaches and rivers and make services like redcycle, etc more available.
