Subject: Recycling situation is a disgrace

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

I am a conscientious recycler who is now making an effort to avoid buying plastic wherever possible, yet now my recycling is mainly glass and yet I believe it is probably going to land fill. Many overseas countries have large bottle bins and others for other materials which helps glass to be recycled properly.

I also call for an end to single use plastics. Our govt need to get tougher with maybe all plastics being made to be biodegradable.
