Subject: Victoria needs a CDS

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

Victoria desperately requires a container deposit scheme. I am a regular volunteer with 3199 Frankston Beach Patrol and we are always picking up cans and bottles along the beach. Not only that, but being a mum of two kids, we are always out and about exploring various parks, gardens, beaches and playgrounds where we constantly see (and pick up and put in a bin) rubbish that could be reduced if a CDS was available in our state. A CDS would be the bare minimum that Victoria could do to prevent our current landfill situations from becoming worse. We must invest in sustainable recycling options.
