RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

We can stop recycling going to landfill and protect our planet for future generations by:

Investing in a Victorian recycling industry

Establishing a 10c refund on bottles and cans

Banning unnecessary single-use plastics

Burning rubbish for power in Maryvale is not a reasonable solution.

I urge you to work with The Greens parliamentary inquiry into waste and recycling

We need to create biochar from council green waste.

Kerbside collections need separation of glass to stop shards contaminating all materials
