**Subject:** New Submission to Inquiry into Recycling and Waste Management

Inquiry Name: Inquiry into Recycling and Waste Management

Dr Tara Maree  
[REDACTED]

**SUBMISSION CONTENT:**

--

- a number of councils within Victoria (ie Bass Coast) have been very innovative in how they manage organic waste. This program should be instated state wide.
- for many years locations in Europe (eg Germany) have charged households by weight for how much waste they generate. I believe this would markedly improve recycling practices.
- a need to Invest in onshore (local) recycling processing
- Government needs to adopt a system whereby individuals who sort waste at recycling depots receive “bonus” payments & or waste credits (towards household waste) when they help sort waste.
- Legislation with regards to packaging which clearly states what can an can not be recycled.
