RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

We are not doing anywhere near enough to invest in the future of recycling and waste management in Australia. Other countries are out doing us year after year. Everyday we are missing opportunities to reuse and recycle resources and change how the Australian public sees waste and recycling.

Plastic is everywhere and overused. The public needs to be made more aware of excess and unnecessary use of plastics and encouraged to look at alternatives and supported to change their consumer behaviour.
