RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

The time had passed to reshape and grow our recycling industry, it needs to happen now. The materials we collect here should be remade and resold right here in Victoria, it shouldn't be that hard to do.

We need to look more at our use of disposable plastics, most of which doesn't get recycled and ends up as landfill in our waterways and oceans, ban them everywhere.

Expand the 10c refunds on bottles and cans and create large-scale composting to divert food waste from landfill and generate power.

These things and more need to start happening now!!!
