Subject: We must not stop recycling!

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

I am surprised and disheartened by governments inability to plan and assess risks with recycling policy and its realisation. As a priority we must be urgently Investing in Victorian and national recycling industries. We cannot be dependent on other countries to clean up our own mess. It is likely uneconomical in a long run and it is unethical.

I would also support banning unnecessary single-use plastics.

Given perceived inaction of our governments and councils I support the inquiry.
