RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

I feel passionately that we must do something more about our waste and recycling issues in Australia. Passing the blame around is not fixing the issue. We need to take action now.

1. Investing in a Victorian recycling industry
2. Establishing a 10c refund on bottles and cans
3. Banning unnecessary single-use plastics

...are just some of the things we could be doing to make a difference.

Please take this issue seriously. Our planet depends on it!
