Subject: End domestic use of Yellow lid recycling bins, co-mingle recycling and general waste.

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

I believe that recyclable material can be more efficiently delivered and sorted if co-mingled with general waste - suggest we end household yellow lid recycling bins and invest in those known technologies that can separate valuable materials at the garbage consolidation points. Separately, I think a tax on single-use plastic ingredients is needed, including for use with bottled water.
