Subject: Waste Plastic and Port Philip

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

Urgent and dedicated action is required to stop waste plastic being washed into Port Philip via stormwater drains and the Yarra. This dreadful material gets into the food chain and kills wildlife, fish, marine animals and birds.

If you do not understand this is a real crisis look at "Plastic Ocean" on Netflix, and if you have not seen this do so anyway and encourage others to do likewise.

There is no time to waste
