Subject: Revolutionise our waste problem

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

I have become a hoarder and my house a junkyard because I refuse to throw away empty bottles and plastics.
Knowing Melbourne's absent recycling program and crisis of polluted lands and water around the world leaves me feeling hopeless for a sustainable environment.
We are a first world country with thirds world problems and solutions. We are all ruining our beautiful earth.
DISGUSTED#find solutions fast
