RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

Dear Committee,

I believe the state of our waste and how as a state it is being dealt with is not only out-dated but setting us on track for crisis.

Look to the Eurozone, they have plans in place and stricter regulations to stop our terrible impact. Victoria needs to look to a party like The Greens and their planned outlines to follow as a guide to prevent us falling behind and getting buried under our own filth.

Australia is known for her natural beauty and unique environment, yet the government let us trash it and leave complacency to rule.

Please consider a greener Victoria that will hopefully pave the way for a green Australia.

Many thanks for your time,

Jack Ralph.
