Subject: Fix Victoria's Waste and Recycling

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

To whom it may concern,

Please fix Victoria's waste and recycling.

- To save unrenewable resources from going to waste
- To protect and clean up our precious natural environments for future generations

We can stop recycling going to landfill and protect our planet for future generations by:

- Investing in a Victorian recycling industry
- Establishing a 10c refund on bottles and cans
- Banning unnecessary single-use plastics

Thank you

Sincere regards,
Josh
