**Subject:** Let's Fix Victoria's Waste Crisis

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

We all want a clean, sustainable future for our community and our planet.

We're doing the right thing by reducing, reusing and recycling, but we can't rely on sending our recycling overseas anymore and the old parties haven't set up a proper recycling industry here at home.

Recycling is being stockpiled, or worse – dumped in landfill.

Our waste system is in crisis.

We can stop recycling going to landfill and protect our planet for future generations by:

- Investing in a Victorian recycling industry
- Establishing a 10c refund on bottles and cans (Container Deposit Scheme)
- Banning unnecessary single-use plastics
