RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

Each time I unpack meat and other products pre packaged with plastic or plastic\_wrapped black foam in self serve fridges in a supermarket I despair. The best thing would be if meat could be presented in sturdy re usable lidded trays. This would add to cost but if a way to recycle these back to the original shop could be organised with a refund it could conceivably be done.

Returning non reusable packaging back to the supermarket as waste which they supplied and must be responsible for would be an encouragement for changing packaging practice.

Yours Jan Lieber
