Subject: Importance of recycling

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

Since buying my own home in the 80's I have been a fervent reducer, reuser and recycler out of respect for Nature the Planet and my immediate environment. I've watched with horror the proliferation of plastic as it has seeped into so many aspects of everyday lives. Our rivers, creeks, beaches, freeways, highways, and sometimes streets and bush are littered with the stuff. Enough!

I'm encouraged when politicians propose solutions like deposit schemes, product stewardship and government procured use of recycled materials.

I live sustainably but many do not, please take immediate action to relieve my worry and stress about my grandchildren's future.
