RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

Tax plastic, large corporations need to be encouraged to use alternatives to oil based plastic packaging. Recycling is great but elimination is better. Tax companies on the type of packaging they use. Give tax breaks for biodegradable, sustainable products. Ban bottled water in less than 2lt bottles, we all survived before it was a thing I'm sure we will survive without it. While we are at it tax high sugar drinks especially in plastic.
