File2:

File3:

- Community Education – Some of the Sustainability Fund should be used to develop and deliver education campaigns focused on informing waste-wise decisions, reducing waste, reusing, re-purposing, repairing and correct recycling
- Container deposit scheme – support businesses that use this scheme, especially food delivery services
- Use the Sustainability Fund to support businesses to revolutionise reusable packaging eg. refillable bottles – milks (dairy and plant-based), soft drink etc
- Incinerating rubbish is not acceptable
- Focus on reducing waste – Emphasis on reuse and repair
- Support Repair cafes
- Use the Sustainability fund to support repair initiatives including training programs for skill development and subsidising repairs to reduce landfill
- Subsidise the use of local recycled material instead of imported ones
- Support councils, hospitality, schools and community groups to compost and better manage food waste
- Mandate that all business, schools, organisations etc. are required to have recycling service. The sustainability fund should also support education and implementation of recycling infrastructure in these organisations
- Single-use plastic straws, plates, cutleries, cups should be banned. Ban them and watch how businesses get innovative!
