Subject: New Submission to Inquiry into Recycling and Waste Management

Inquiry Name: Inquiry into Recycling and Waste Management

Elizabeth Oldenburger
[REDACTED]

SUBMISSION CONTENT:

--

We need a better system for recycling in our local councils, our states and our entire country! We are so far behind! There's should be absolutely no single use plastics being produced and used and a return to using glass and or more sustainable products made from hemp etc. Our food scraps need to be composted and each household should have a bin for this and facilities built locally to compost. We can not burn our waste or dump it in landfill, more needs to be done to protect our planet and the world for future generations.
