Subject: My wasted effort

RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

As a recycling nut, it just about broke my heart to hear that all of my efforts could have potentially gone to waste by having all of my recycling simply end up in landfill. Its easy for people to just throw waste into a blue tub on wheels and forget about it. I don't want to live on a floating ball of trash in space. Wall-E was cute and all, but that's just ignorant.
