RE: INQUIRY INTO RECYCLING AND WASTE MANAGEMENT

Hey Dan
Im a fan
But I hand out for the greens
Cos the local bush is fucking obscene
Cash for containers
Not pollie retainers
Lets show the world
What smart lefties can do

Lets build a recycling industry
And use the cans to make electric cars
I work in the building industry
The waste packaging is enormous
Maybe we can find incentives dor manufacturers to minimise their packaging waste Raising the cost of landfill is just making oeople dump stuff in the bush Good luck Lo ve your work Bill
