### **YOUR SUBMISSION**

**Submission:**

Australia has signed International Covenant Of Human Rights. Why is Australia's Social Security System a Retrogressive System? Why do we find Australian citizens becoming homeless in their sixties? Why do we have young Australian citizens unable to navigate Australia's Social Security System because it is so difficult to deal with? Have we forgotten our obligations under The International Human Rights System? Why are older people discriminated against when trying to find work? Why is wealth in Australia so disproportionate? All of the above questions have gone on to long in Australia. Our leaders have failed, they have failed large portions of Australian citizens and the problem is getting much much worse as each day goes by. Our young citizens are told, " Australia is the lucky Country", (but this is a lie) they are further told, " you can be anything you want to be" (but this is a lie) and further told, " there is equality of opportunity" ( but this is a lie) and so on. The greatest underlying problem to homelessness and all the equations that go with it as cause and affect is, distribution of wealth and a retrogressive Social Security System.
