

organisations; eg. emergency relief.

Structured education for people experiencing homelessness - becoming rent ready - what it means to be a good tenant, rights and responsibilities of a tenant, applying and accessing private housing options. This will help to build a person's confidence to be able to complete these tasks independently, to establish and maintain a successful tenancy.

Housing first models are great system that we can align ourselves with more  
We require 1 bedroom options for single homeless person's such as tiny houses

Support should be tailored to the client - not on statistical factors such as time restrictions

Rent capping for private tenancies on what the client can afford

Property upgrades to public housing stock
