What best describes your interest in our Inquiry? (select all that apply) :

Concerned citizen

Are there any additional themes we should consider?

The high percentage of LGBTI youth that are homeless

YOUR SUBMISSION

Submission:

My only submission is that tackling homelessness should be a high priority. Public land and public housing is being sold off by this govt. Money is poured into roadworks, Billions of dollars have been poured into concert halls, upgrading art galleries, a \$15 million 'Pride Center'. Thorne Harbour Health is a prime example of funds being wasted.They are vastly overfunded. They recently sold a property in South Yarra for tens of millions and bought a new one in Abbotsford for many millions more. This is an organisation that employs very few., inflates and outright lies about there role in the community and are incredibly rich. The money they recieved could be spent on social workers and the buildings they buy and sell could be used to house people. This is a form of corrupt elitism at it's worst.

Do you have any additional comments or suggestions?:

Spend less on crap, Properly and externally audit organisations that receive public funding, especially if they go under the guise of community support institutions. Priorities housing over trivial baubles for the few. The government needs to be accountable for selling public assets and not providing a basic necessity like housing and real support for the disenfranchised in a country that for the time being is affluent.
