YOUR SUBMISSION

Submission:

I have worked in public community health in the past and have a bit of experience but I'm not an expert. I wanted to make a submission based on my observations from experience and talking to people experiencing homelessness in the last 10years.

I would like the govt and private institutions to:

Build homes in conjunction with services of support to provide for the needs of mental health or a job or social situation problems etc. the two have to go hand in hand so people can find their way

Thank you for this opportunity
