I implore you to do everything in your power to bring in Daniels law. If it had been around 30 years ago my parents would have known to not let me visit a 27 year old that I thought was my "friend" and be raped. If it was around now, I would know where he was and he would not have been able to disappear off the face of the earth after doing the same thing to numerous other girls. The police would be able to keep a closer eye on them and families could look up if there are any in their neighbourhood. I do not believe that they would be attacked. But we would know to keep our children away from these disgusting soul stealers. That is what this person did to me. He stole my soul when he raped me. At the age of 42 I am now just starting to pick up the pieces that this monster scattered when I was just 13. These monsters won't stop. They don't care about their victims. They only care about their sick pleasure. This man laughed as I cried. This man told me he loved me as he took away my innocence. My 13 year old brain didn't know how to cope with what he did to me. So it did the only thing that would protect me at the time. It rewired itself. Since that time I have borderline personality disorder. I never knew what was wrong with me. I never knew why I hated myself. It has taken 30 years of trying to destroy myself. I am alive, but just. I have tried to take my life, because I couldn't cope with what he did. By him thinking only about his pleasure. He took my life at 13.

Please this law is needed now.

Linda Bonner

Are you interested in appearing before the committee in person to talk about your submission?

Yes
